

February 22, 2023

Pixley Irrigation District will be able to turn back on Friday. The District is now taking orders for Friday morning. We will make this transition back on, as quickly and as smooth as possible. If you are ordering water on the westside please expect some delays in deliveries from the normal on and off times. **All water must be re-ordered to come back on.**

As always if there is any questions please call the office.

Sincerely,

Kirk Masters

Water Resources Superintendent
