

**February 24, 2023**

Pixley Irrigation District is still planning on shutting off Tuesday at midnight 2/28/2023 with Friant water. With that being said, we are anticipating that Deer Creek natural flows will still be running with the current storms lined up and could keep Pixley running for the remainder of the week. With the exception of Ave 116. It has no ties to Deer Creek and will not be able to run. As always when dealing with flood operations and natural run off on Deer Creek things could change quickly. I will do my best to keep everyone updated on any changes as soon as I can.

As always if there are any questions please call the office.

Sincerely,

Kirk Masters

Water Resources Superintendent
