

## August 2, 2023

Pixley 2023 Water Run update –

Pixley water will be reduced tomorrow morning for the prorated in the Friant Kern canal. This will affect the westside growers at some point tomorrow afternoon. The east side growers will have enough flow to stay on for an additional day. There is still the possibility that Friday we could continue running on the eastside, but we will not know until after tomorrow's orders. Thanks for your patience.

As always, if there are any questions please call the office.

Sincerely,

Kirk Masters

Water Resources superintendent
