Pixley 2023 Water Run update –

Pixley will be starting water tomorrow 7/29/2023. Some growers on the east side will be able to get water late morning tomorrow. For Pixley west side of 99, water will be filling and able to take water orders for Sunday. The water as of now looks good through Monday. But remember that could change daily and even hourly lately.

Uncontrolled season (flood waster) is also ending tomorrow. All orders for Sunday must be for irrigation only.

As always, if there are any questions please call the office.

Sincerely,

Kirk Masters

Water Resources superintendent
