

July 10, 2024

Pixley Irrigation District Water Operations update: for July 2, 2024

As of today, the Bureau reduced class 1 allocation from 100% to 90%. With that reduction in water and current demand, Pixley is looking at running out of water on July 18th. Give or take a couple days depending on demand changes.

As always, if there are any questions please call the office.

Sincerely,

Kirk Masters,

Water Resource Superintendent
