

Lower Tule River Irrigation District
Water Notice 01-05

To: LANDOWNERS AND WATER USERS

May 8, 2001

Pursuant to Board of Directors decision the District's summer water run will commence on May 17, 2001. Please contact the District office to place a water order and to determine exactly when water will be available to your turnout(s). It is anticipated that water will be available on all parts of the system by the morning of May 19th.

We are currently targeting a run that would continue until the third week of June. At that point conditions will be reassessed to determine the balance of the summer run, i.e., two weeks on/off if necessary. The water rate has been set at \$35 per acre-foot. That rate will remain in effect until further notice. We will keep you informed of any changes in the supply and/or rate. Please contact the District office for additional information at 784-2598 or 686-4716.

If you would like to receive future notices by email, you can email the office at ltrid@ltrid.org with your email address.

A reminder that all water accounts and Reclamation Law forms must be current in order to receive water.

Daniel G. Vink
General Manager
