

**LOWER TULE RIVER IRRIGATION DISTRICT
WATER SUPPLY NOTICE 2005 – 5
9/7/05**

TO: WATER USERS

All good things must come to an end. After 230 consecutive days of water, which began in late January, the District's 2005 water run will end on September 12th. Depending on your location on the system, water may be off slightly before the 12th or may last a while longer. It takes a few days to shut down our entire system.

This was the longest water run we have had in more than 6 years. On behalf of the Board and staff I thank you for your cooperation and understanding.

Daniel G. Vink
General Manager
